HOW TO SIZE HANDS FOR THE BEST FITTING GLOVES :

Using a tape measure, wrap the tape around the hand at the widest part as shown and make a loose

fist. Round the measurement up to the nearest whole inch.

Sizing is based on a "normal" or "standard" size hand. Unfortunately, almost no one actually has a "standard" sized hand, no two people's hands are exactly the same, and no pair of hands matches exactly. Usually one hand will be slightly larger than the other, typically the strong hand (e.g. the right if right-handed). It's always best to try and fit gloves in person.

If you need information on fitting tactical gear, please contact us.

MEASUREMENT:	GLOVE SIZE:
7" (17.8cm)	X-SMALL
8" (20cm)	SMALL
9" (23cm)	MEDIUM
10" (25cm)	LARGE
11" (28cm)	X-LARGE
12" (30.5cm)	XX-LARGE
13" (33cm)	XXX-LARGE
